Package Developer (R)

Overview/Summary

Combine LLMs, MCP tools, SKILLS.md, with past experience with REST APIs, github actions, shiny, bash, zsh to automate small to mid-size projects.

Technical Skills

- R, 4+ years
- tidyverse, httr2, data.table, shiny, quarto,
- SQL: 2+ years, joins, dplyr
- Positron, emacs, zsh shell, github, github actions
- admiral, admiraldev, sdtmchecks
- opencode, MCP, SKILLS.md,

Recent Projects & Skills

R package developer. Worked with pharmaverse, including admiral, and pilot5 JSON delivery to FDA. Worked with CDISC standards, such a ADaM, SDTM, and including schema and REST api, in Clinical Trials R packages

- (active) Fix issues in Pharamaverse Admiral and sdmtchecks R packages. Attend developer meetings. Wrote github actions workflow to automate.
- (active) Develop github actions to automatically verify various pharmaverse datasets and templates pass tests.
- Using Shiny developed preliminary dashboard for analysis of Drug Benefit Denials (public data from Center for Medicare and Medicaid (CMS)).
- Used youtube API and `httr` and `httr2` to add/modify youtube.com playlists. Used OAUTH tokens scope. Active participant developing book Web APIs with R, using openAPI framework.

- Used tools in `rrapply` , `tidyr` , `vctrs`, `tibblify` to unravel deeply nested JSONs in tree/json format to table (from REST apis)
- (active) Contribute to various Open Source projects (Github)

RELATED WORK HISTORY:

Prior projects include

- Taught classes java, math, internet, statistics in China and California community college in US. Certified to teach math in at California community college.
- Webmaster, Saratoga Systems, Campbell, CA (1996-1998) Maintain NT and IIS server. Various internet projects.
- Web Database Development, Microsoft, Redmond, WA Web database applications using Asp, MS SQL; contractor.
- Contract Programming Assignments: Chicago, IL Designed and developed variety of business database applications (Paradox, Delphi, Access). Example: Developed relational database model for insurance company to track debt and assets of its multi-billion dollar joint ventures/commercial properties.

Education

```
BS MIT, physics
```
